JAYNES' ALMOND LOTION

THAT hot, sore feeling that you have when sun-burned is due to the drying up and hardening of the skin. Jaynes' Almond Lotion makes the skin soft and pliable, soothing the inflammation and bringing back a healthy condition to the pores. Its continued use keeps the skin soft and smooth, free from rash and pimples. Indispensable to the ladies' toilet. Gentlemen also find that Jaynes' Almond Lotion keeps the face in a delightful condition when used after shaving. It is a wonderful relief to children whose tender skin is so apt to become chafed and chapped.

SPECIAL TOWN MEETING.

A Big Talk--Some Things That Were Not So, and a \$40,000 School House Located.

Both the expected and the unexpected happened at the special Town Meeting held in Old Fellows opera house, East Weymouth, last Friday night.

Some time before the hour for which the meeting was called, a good number of people had gathered from different parts of the town and it was evident that while the town meeting was in session, the articles in the warrant, that they would rather have a "Special Town Meeting" at some other time than on a hot July night.

The sound of the gavel of John A. Raymond called a halt on the several impromptu open-air meetings, and the meeting proper was on inside the hall.

Louis A. Cook, Esq., was made moderator by acclamation and Article 2 was up.

This article read as follows: "On petition of Joseph A. Cushing and nine others to see if the town will vote to locate the new schoolhouse to be built in Ward 2 and authorize the purchase or taking of the lot of land determined upon, and provide for the payment therefor."

Mr. Cushing, a member of the committee, immediately got the floor and moved that the committee be authorized to purchase the Randall lot, so called, a tract of land on Randall avenue, and but a few minutes' walk from the Savings Bank, and the price named was \$12,000.

Nelson W. Gardner, another member of the committee, got the floor and put in a motion which he claimed was submitted by a vote of a majority of the committee and that the previous motion was a breach of good faith and courtesy. Mr. Gardner's motion was that the committee be authorized to take the Henry Bicknell lot on Commercial street, near the reservoir, at a price of \$3,000. It was at once evident that the committee was far from a unit, and it was a matter of serious doubt how to make a unit of it; the more they had to do, the wider the breach became, and P. J. McLaughlin moved as an amendment that the committee be instructed to purchase a tract of some 5 to 7 acres, known as the Dizer lot, or "ball field," Lake street.

The values now became wide open and the bid lifted, the following persons taking part in the school and building discussion which followed: J. A. Cushing, N. W. Gardner, D. M. Easton, Rev. L. Bradford, P. J. McLaughlin, John A. Connell, L. A. Cook, J. C. Howe, M. Sheehy, C. J. McMorris, S. Burgey and A. A. Badger. Mr. Howe getting in his usual "Yop" in regard to the High School building.

"We may be criticised for using the word 'Yop' in this connection. We know it is not classic and as far as we are able to find out does not appear in any dictionary, but as the gentleman himself classed his town meeting talk some time ago as 'Yop,' we let it stand."

After the prolonged discussion, the question was called for, and Mr. McLaughlin's motion prevailed, the meeting by an overwhelming majority voting for the Dizer lot, which is on Park street, but five minutes' walk from Broad street, two or three minutes' from Charles street and affords not only a good schoolhouse lot, but one of the finest fields for base ball and athletic exercises to be found far and near, and it is now up to the committee to give the town the land and an eight-room school building within the appropriation of \$40,000.

The action under Article 2 practically disposed of Article 3, and Article 4 was taken up. This article was "On petition of Nelson W. Gardner and ten others to see if the town will appropriate, or raise and appropriate, the sum of \$250 for repairs of highways, or act in any manner in relation thereto," and Mr. Gardner moved that \$200 be raised and appropriated for the above purpose.

Mr. Hays for the committee on appropriation, said that no reason had been shown the committee for the appropriation and according to the chairman of the selectmen that while the money could be used to good advantage, no emergency existed which called for it. In reply, Mr. Gardner made a big play to the galleries and got far from the "whole truth," claiming that the town at its annual meeting raised \$7,000 for roads and \$500 had been taken from it, leaving but \$2,500 for roads, while the real fact is that the town did raise \$7,000, and took from it \$700, leaving \$6,300, but the gentleman who claims to be, and is, well posted in town matters, neglected to state that an unexpended balance of over \$2,200 was raised and appropriated for school work near the wharves at the Landing, \$800 on Broad street in East Weymouth, \$200 at Thomas corner, \$200 for Wessagusset road, \$200 for Central street at South Weymouth, \$150 for drain on High street, East Weymouth, making a grand total of over \$19,000, which was at the disposal of the street department at the close of the March meeting. Further comment on such play is unnecessary.

Article 5 was "On petition of James E. Burke and eleven others, to see if the town will vote to pay Thomas F. Brady for the years 1903 and 1904, Sunday work." No action taken.

Article 6 was to see if the town will accept the provisions of Section 28 of Chapter 81 of the Laws in relation to impounding beasts on premises of field driver.

The hour was getting late and some anxious to get home moved to adjourn and the motion prevailed without taking up this article, and stray cattle will continue to be taken to the "Town Pound."

With one of its millions incarcerated in "murderers' row" and another sentenced to "do" six weeks' time for running over and killing a child with his automobile in France, these are truly dark and discouraging days for the wealthy—Boston Globe.

George Washington was so fond of cats that he would get in the middle of the night to throw a bootjack at them.

It's just as easy as bragging for any presidential candidate to sweep the country two years hence. Meanwhile the country will be busy thinking.

Napoleon could never think to shut a door after him, unless he was mad about something.

Daniel Webster said that there is something on earth grander than arbitrary power. The thunder, the lightning, and the earthquake are terrible, but the judgment of the people is more.

Christopher Columbus always paid for his local paper promptly, and being an attentive reader he always found out when new words were ripe.

Shakespeare, when carrying a coldish home from the village grocery, would invariably try to conceal it underneath his coat.

It takes two to make a quarrel, or even a misunderstanding, if when things seemed to go all cross purposes, one of the two would seem not to notice it, but quietly proceed to straighten them out, the trouble would be over before it was well begun.

When the wife of Galileo gave him a letter to mail he always carried it round in his pocket three weeks before he ever thought of it again.

An old Scotchman, on marrying a very young wife, was called by his friends on the inequality of their ages. "She will be near me," he replied, "to close my eye." "Well," said another of the party, "I've had two wives, and they opened my eye."

The Banker and the Tradesman says very truly, "A good many people cannot distinguish the difference between being rich and having the opportunity to get rich."

At the International Sunday School convention at Louisville, Ky., in answer to the roll call of states, reports were verbally given by the various state chairmen.

When the Lone Star State was called, a brazen specimen of southern manhood stepped out from the aisle and with a loud voice exclaimed:

We represent the great state of Texas.

The Food Value of a Soda Cracker

You have heard that some foods furnish fat, other foods make muscle, and still others are tissue building and heat forming.

You know that most foods have one or more of these elements, but do you know that no food contains them all in such properly balanced proportions as a good soda cracker?

The United States Government report shows that soda crackers contain less water, are richer in the muscle and fat elements, and have a much higher per cent of the tissue building and heat forming properties than any article of food made from flour.

That is why **Uneeda Biscuit** should form an important part of every meal. They represent the superlative of the soda cracker, all their goodness and nourishment being brought from the oven to you in a package that is proof against air, moisture and dust—the price being too small to mention.

NATIONAL BISCUIT COMPANY

The first white woman born in Texas is still living—she now has a population of over three million.

There was a pause of bewilderment for a moment and then a voice from the gallery rang out clear and distinct: "Send that woman out to Wyoming—we need her!"

Not Pretty, but Smart.

Two German women were recently calling on a new neighbor, and while awaiting her appearance a little girl came into the room, evidently bent upon the rescue of a doll recently abandoned there. Naturally she was viewed with some curiosity, and one of the callers, secure in the child's obviously tender age, spelled a low-voiced comment:

"Not very pre-t-t-y."

To her horror, the small maiden paused on the threshold and, fixing a contemptuous eye on the culprit, remarked with lofty composure:

"No, not very pre-t-t-y, but rather s-m-a-r-t!"—Philadelphia Ledger.

THE MASAI OF AFRICA.

A Queer Race Where the Men Become Old at Thirty.

The young men of that African race, the Masai, are old warriors, theoretically, by the time they are twenty years of age, and are known in their own language as *ol moran*. They pull the head hair out to its greatest length, even sometimes twisting and plaiting their hair and string into their wool. The hair is then thickly coated with mud and fat, and the result is a mass of matted hair, which is plucked out by iron tweezers. The skin is kept constantly lubricated with mud.

The face is sometimes in keeping with the body, but more often has a rather brutal aspect. The Masai are not very tall, but are very strong and very hardy. They are very fond of fighting, and are very brave.

As regards the body there is probably no more beautifully formed type of man than the young Masai warrior. The face is sometimes in keeping with the body, but more often has a rather brutal aspect. The Masai are not very tall, but are very strong and very hardy. They are very fond of fighting, and are very brave.

When a Masai decides that he has had enough knocking about and has accumulated sufficient property to which to retire he decides to marry. This is usually about the age of twenty-seven to thirty. After marriage he shaves his head, or at any rate keeps the hair of his head very close cropped.

He then develops exceptional skill in his art, and dextrously ranges himself with the old men.

DOCTORS' FEES.

A Medical View of the Charges and Work of Physicians.

The law of supply and demand regulates medical compensation to a very great extent. It is a natural phenomenon, over which neither the professor on the lecture platform, nor the doctor in his office, has any control. Where there are many physicians of equal ability competition grinds down the fees. If the income drops below living expenses the least successful leave the community or take up other means of getting bread and butter. The fittest survive, and in every locality the competition of the profession is in a state of constant flux—never the same from year to year and constantly requiring itself to the work to be done. When a man develops exceptional skill his services are demanded more and more. They are bid up by competitors on the other side. He is, indeed, compelled to raise his fees to prevent overwork, and to do his duty by his patients if he tried to treat a hundred a day, and that many would crowd his office if his fees were 25 cents. It is also a fact that a surgeon can do more now than ever before—a few can do wonders as compared with the surgeons of a century ago—and they receive more in proportion by the operation of natural law. How they gained this ability is immaterial to the question. To-day, not all have ability to profit by fortunate opportunities to learn surgery—American Medicine.

Dr. Miles' Nerve Cure
Completely Cured Me.

A frequent complication of rheumatism
and neuralgia is constipation. The use of Dr.
Miles' Nerve and Liver Pills in conjunction
with Restorative Nerve makes an ideal
treatment for such cases. The Nerve and
Liver Pills, by their tonic influence upon the
nerves of the stomach, liver and bowels,
cause them to act naturally. Thus the system
is really cleansed of the impurities which
cause the trouble and the nourishing and
soothing effect of Nerve is allowed to do
its wonderful work of restoration without
interference from the complication.

As I suffer from neuralgia, I have learned, my
back, this ran into sciatic trouble from
which I have suffered more or less ever since.
I had sick headache every day with a dizzy,
faint feeling, also quite a little confusion.
I was extremely nervous and suffered much
from constipation. I was told to try Dr.
Miles' Remedies and decided to give them a
trial. I procured a bottle of the Nerve and
Liver Pills. I used them as per directions.
I am now completely cured. I am now
enjoy good health, sleep peacefully, and
take pleasure in recommending Dr. Miles'
Remedies to the public.—REV. A. B. MOW-
ERS, Tuxedo, N. Y.

Dr. Miles' Nerve and Liver Pills are
the best for all cases of constipation, neuralgia,
sciatic trouble, and all other ailments of the
nerves and bowels. Address Dr. Miles Medical Co.,

When You've Got It.

An advertiser quite advertising because, he says, "I have all the business I can handle." That is an extremely short-sighted view to take of the matter. If the business is gettable, it would pay to enlarge the house, borrow money, hire more people, or lay in larger stocks. Nobody in this day and time should rest content with the business already being done. This is an age of expansion and progress, and advertising is the lever

GATHERED UP.

As soon as a man gets a notion that his employer can't get along without him he is getting ready to lose his job.—Whitman Times.

It is only a poor sort of happiness that could ever come by caring very much about our own pleasures. We can only have the highest happiness, such as goes along with being a great man, by having wide thought and much feeling for the rest of the world as well as ourselves.—George Eliot.

New Arrival. "Hurry, now, get into bed. You've said your prayer," "I don't think yet," protested the little girl, and she added: "Oh, bless Bridget and make her a good girl, so she'll stay a while."—Philadelphia Press.

If a man asks a candid opinion from a friend and gets it, it makes him mad.

"The source of nearly all evil and unhappiness of this world is selfishness. We know it, but we still keep on being selfish. We see that the world might be ideally beautiful if only all people would live unselfish lives; and yet we keep on being selfish."—Minot J. Savage.

Contrary. "Hicks—but what makes you so sure that your boy will go to the gymnasium this afternoon?" "Wicks—because I told him not to."—Somerville Journal.

The following is clipped from an exchange: "The man who kicks because his paper doesn't come is again with us. This man turns up just as regularly as the summer vacations on which he goes." "Send me your summer address," he says, and then goes off without giving the slightest hint as to what particular spot of the globe his summer address is. And then, when his paper doesn't come, isn't he wretched?

Just one answer to the man who does this. When his paper doesn't come, remind him that no news is good news."

A military band in the Philippines which played only two tunes, "Always in the Way" and "Hot Time," has stirred up plenty of trouble by playing the former at a soldier's funeral. The choice seems difficult, but the preference of the boys themselves ought to have been respected.

Sound. "Do you regard that man's arguments as sound?" "Yes," answered the senator. "That and nothing else."—Washington Star.

We are informed that every man in Pittsburgh isn't a millionaire, and every Pittsburgh millionaire isn't bad, which is a fact worth knowing.—Quincy Advertiser.

Mighty Few Left. "Maria, we'll have to give up that summer trip. My account at the bank is already over-drawn."

"Oh, John, you are such a wretched duffer!" Why didn't you put your account in a bank that had plenty of money?"—Chicago Tribune.

Ten Good Things. There are ten things for which no man has ever yet been sorry. These are: For doing good to all; for speaking evil to none; for hearing before judging; for thinking before speaking; for holding an angry tongue; for being kind to the distressed; for asking pardon for all wrongs; for being patient toward every body; for stopping the cars to a tablecloth; for disbelieving most of the ill reports.—Hingham Journal.

He Knew. Teacher—Now, Robert, do you know what an isosceles triangle is? Boy—Yes, Teacher—Well, what is it? Boy—It's one of them things I gits licked for not knowing 'em it is.—Judge.

Fame. Fame is the inheritance not of the dead, but of the living. It is we who look back with lofty pride to the great names of antiquity, who drink of that flood of glory as of a river and refresh our wings in it for future flight.—Hart.

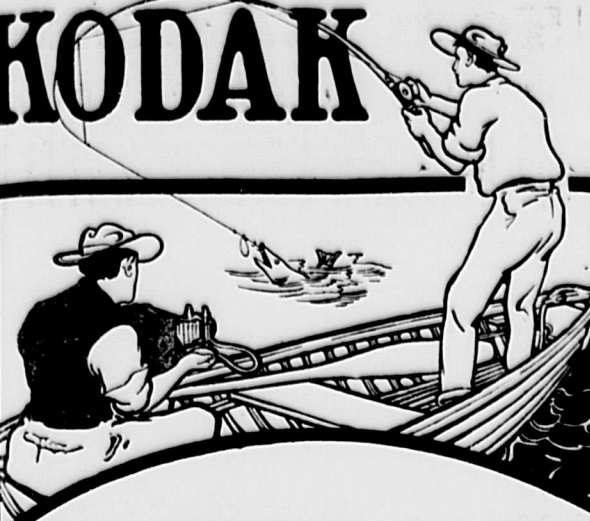

A Franklin housewife heard somewhere or else read it, that if the piece of ice is wrapped in newspaper before being put into refrigerator it will keep longer. The article of the chunk of coolness, and incidentally keep down the ice bill. She tried it, became convinced that it was effective, and declares that it helps out wonderfully in this season when frozen water is such a costly necessity.

He Knew. "Did you never," asked Miss Soledad earnestly—"did you never meet a person whose very presence filled you with unutterable feelings—whose slightest touch seemed to thrill every fiber in your being?" "Oh, yes," responded Mr. Oldbath; "you mean the dentist."—Cleveland Leader.

Wind Velocity. The average velocity of the wind is low, in most places between five and ten miles an hour, corresponding respectively to wind pressure of from two ounces to eight ounces a square foot. However, some of the higher velocities are recorded, since the averages contain considerable periods of very light breezes occurring often within a few hours before and after sunrise and sunset. There are few days without periods of brisk breezes of from fifteen to twenty miles an hour.

Why Thunder Sours Milk. To many persons the curdling of milk in a thunderstorm is a mysterious and unintelligible phenomenon. Yet the whole process really is simple and natural. Milk, like most other substances, contains millions of bacteria. The milk bacteria

The Gift of Healing
Is it a gift or our Common Father? Is it heaven-sent, and, hence Divine? Are some persons more fully qualified to do certain things than others? Are not some individuals seemingly endowed from their birth with unaccountable precocity; with a mental bias in certain direction that gives to them the distinctive appellation, "Phenomenon."
Mozart at the age of six, startled the musical world with his compositions and organ preludes. Sir Joshua Reynolds, a painter from the first of his days, excelled in his art, and his pencil and with which he astonished all England at the same tender age with his matchless portraits. Is it the finger of God that moves the graver of Phidias, Phidias, Leonardo di Vinci, Michael Angelo? By what heaven-endowed inspiration have the marvelous creations in painting wrought by the Divine Genius of the world's great painters been profited upon "breathing, moving life"? Who has breathed a "divine affluents" upon the Sons of God, giving us orators with tongues of fervid fire? Why are we not all Poets, Painters, Sculptors, Orators? Who attempts to deny that these gifted men, this favored of God and the world, have been endowed with the gift of healing? In setting bones the girl and boy members of the famous Sweet Family of Natural Healers have astonished the world with their amazing cures and medical exploits. Was it the will of Providence that imparted to young Sweet's baby hands that, at the tender age of nine years caused to disappear, as if by magic, a monstrous tumor on the neck of a woman after being stroked by the hands of this scarcely more than infant doctor? Entered at the post office at Weymouth, Mass., as second-class matter, July 27, 1906.

There have been an unusual amount of suicides the past week, and it is attributed to the heat. Great chance some people are taking.

The Old Town House is slowly coming down and the committee are trying to find a place on the new lot at East Weymouth to put it together again.

The calamity at Framington by which ten or more lives were lost and many injured is another warning against piling up high buildings with questionable material, or even piling them with good material so fast that they can not be properly supervised.

People never found so much pleasure in looking and water sports as they are doing just now and if one has the time it is one of the most pleasing recreations but in many instances we read "he could not swim." The first thing a person who wishes to indulge in water sports should do is to learn to swim and float.

A writer in one of our scientific magazines is trying to get some consolation from the thought that in smaller families "has come a higher physical, mental and moral manhood." We admit that there are some great men in our day but none of them tower very high above the American families of a few decades ago when the family numbered from 8 to 14.

The boards of assessors in several towns have announced their tax rate for this year and Brookline has a broad smile at \$9.00 on thousand while Avon shines at \$2. Weymouth is not in order but we hope it will be low in order that we may lay aside a little for that \$70,000 special town meeting which we had a few weeks ago and which will have to be paid for some time.

Albert Bett of London and Russell Sage of New York have passed away within a few days and their wealth is counted by a longer list of figures than are given to many men and the mass of the people mention the figures and criticize the departed for making them so large, and yet most of us would do the same thing if we could. Very few people stop because they have got enough.

In searching for another matter in the town records of nearly two hundred years ago, we find that in 1723 the town built a "schoolhouse for the whole town" and it cost \$22 7 11 and it was all the fathers could afford to invest. This schoolhouse was between Joseph Lovell's and John Shaw's (wherever that may have been) and the boys and girls walked to and from it whatever the distance may have been.

Tufa's Library.
The next exhibition from the Library Art club to be held from Aug. 1 to Aug. 20 will be Photographs of Fourteen Famous Pictures. There are copies of paintings by Le Brun, Watteau, Gainsborough, Romney, Murillo, Noldein, and Gorgoglio among other noted artists. The whole is a most interesting collection of pictures.

School Committee.
A special meeting of the school committee was held last evening; all the members were present. Miss Nellie M. Holbrook was elected teacher of the Holbrook school. Other teachers elected were Annie C. Bartholomew of Glen Ridge, N. J., high school, salary \$600; Pearl Grant of N. Bellingham, third grade Athens school; Lottie M. Murphy, fourth school; Annie L. McGary, eighth grade; Miss Emma McCarthy was transferred from the Pond to the Jefferson school.

Weymouth's Old Home Week.

Plans Are Maturing and Several Interesting Events Are Mapped Out.

Three years ago Weymouth made its first attempt at an Old Home Week celebration and the entire week was one of interest and profit to the town. The committee at that time planned for a day of celebration in each village as well as for a general celebration, and the people of the several villages vied with each other in the respective days of attraction, and while the features in each village were different from the other, they were all enjoyed and brought out a large number of people.

This year the town made the same appropriation as before, \$200, and again placed the matter in the hands of the Historic Society and through its special committee appointed for the purpose, arrangements are now so well developed that the Old Home Week of 1906 promises to be of equal, if not superior, interest to that of 1903.

The plans are materially different from 1903. While efforts are being made for a grand home coming of those who have gone out from our midst, there will be no village celebrations as before. In fact, the real gatherings and celebrations will be those of the High School alumni which takes place on Thursday, Aug. 24, and the celebration Saturday, Aug. 25.

The first event, however, will be at the Baptist church Sunday evening, July 22. The church has arranged a series of four nights in which Principal E. H. Sampson will speak of "The High School of Weymouth." Mrs. Harriet K. Gutterman, of "Social Life in Weymouth," John W. Bates, "History of Railroads for Weymouth," and Walter L. Bates, "History of the Town of Weymouth."

With favorable weather conditions Saturday should be a day that will be an uplift to Weymouth all along the line. The parade will be at the Fair Grounds at 10 a. m. and will be a grand affair. The parade will be a grand affair. The parade will be a grand affair.

It is proposed to have a parade of all industries and organizations in town as well as private carriages and automobiles. The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair.

As chairman of the committee on parade, Louis A. Cook will be Chief Marshal with the following aids: H. B. Reed, historic division; Walter L. Bates, Bacon and decorated vehicles; John S. Bacon, trades and industries; A. P. Worthen, automobiles. There will be the Weymouth band, George White, leader; and the American band, Castelli, leader.

The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair.

Thursday, August 24, as we have said, will be the High School Day and the school is about to enter upon the second half century of its existence and has graduated nearly a thousand pupils, much may be expected on that day.

High School Reunion.
The prime feature of Old Home Week is to bring together members of families and associates that have been for some time separated. A reunion of High School graduates is therefore appropriate at this time and should be encouraged by every former pupil and graduate of the "Old High."

Thursday, Aug. 24, is the day appointed. The afternoon session will be held at the church, South Weymouth, and is designed to keep alive the recollections of "old friends and old times" in high school association.

The success of the affair depends upon the desire of the alumni to so meet one another. Your absence means that you have forgotten delightful times and many friends. Therefore be present and foster one of the virtues that should never die—the virtue of remembering and commemorating good things. The only expense will be the foot you may bring with you. Ice cream and coffee will be furnished by the committee. Come and join!

The evening occasion is for all, of course, but more particularly for gay spirits than those who meet for the handshake and the communion with old acquaintances. May all the younger class

Weymouth Band—Worthy Music.
Editor Gazette: Owing partly to my absence in Europe a year ago, last Friday evening was my first opportunity of hearing our Weymouth band—George White, leader, in one of their street concerts. To say that I was delighted to give a new pride in my Weymouth citizenship is but to indicate my high appreciation of all that I heard. The selection of numbers, the time, the harmony and the skill of the performers combined to make the concert of rare merit and value. While in Europe I was privileged to hear military bands at Vienna, Berlin, London and Edinburgh, each presumably the best that its government can provide, but I am free to say that, all things considered, Mr. White and his associates would need have no hesitations in placing their band in the class named; in them they doubtless would win high praise.

Our Weymouth band is not without appreciation on the part of many of our citizens, but may it not be possible for this appreciation to be increased and to be more widely extended? In part, would we not of the "Landing" hour the band, as well as greatly benefit ourselves and show a somewhat due public spirit if we provided for two band concerts a week, one at each Lincoln and Washington squares, from now till the first of September? Bands, like editors and preachers, need encouragement; also, bands, like everything else, cost money. Also, how exceedingly helpful to the well being of community at large are the concerts here spoken of.

W. R. C. Notes.
Corp 102 will attend the Old Home Week service at the Baptist church next Sunday evening, July 22nd. They will have a float in the parade Saturday, Aug. 24th.

The national corps convention will be held at Minneapolis, Aug. 15 and 16th and corps 102 will be represented.

A delegation from corps 102 performed the burial service of the funeral of a member of the Kingston W. R. C. at South Weymouth.

The next meeting of the corps will be Aug. 14 p. m.

Weymouth's Old Home Week.

Plans Are Maturing and Several Interesting Events Are Mapped Out.

Three years ago Weymouth made its first attempt at an Old Home Week celebration and the entire week was one of interest and profit to the town. The committee at that time planned for a day of celebration in each village as well as for a general celebration, and the people of the several villages vied with each other in the respective days of attraction, and while the features in each village were different from the other, they were all enjoyed and brought out a large number of people.

This year the town made the same appropriation as before, \$200, and again placed the matter in the hands of the Historic Society and through its special committee appointed for the purpose, arrangements are now so well developed that the Old Home Week of 1906 promises to be of equal, if not superior, interest to that of 1903.

The plans are materially different from 1903. While efforts are being made for a grand home coming of those who have gone out from our midst, there will be no village celebrations as before. In fact, the real gatherings and celebrations will be those of the High School alumni which takes place on Thursday, Aug. 24, and the celebration Saturday, Aug. 25.

The first event, however, will be at the Baptist church Sunday evening, July 22. The church has arranged a series of four nights in which Principal E. H. Sampson will speak of "The High School of Weymouth." Mrs. Harriet K. Gutterman, of "Social Life in Weymouth," John W. Bates, "History of Railroads for Weymouth," and Walter L. Bates, "History of the Town of Weymouth."

With favorable weather conditions Saturday should be a day that will be an uplift to Weymouth all along the line. The parade will be at the Fair Grounds at 10 a. m. and will be a grand affair. The parade will be a grand affair. The parade will be a grand affair.

It is proposed to have a parade of all industries and organizations in town as well as private carriages and automobiles. The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair.

As chairman of the committee on parade, Louis A. Cook will be Chief Marshal with the following aids: H. B. Reed, historic division; Walter L. Bates, Bacon and decorated vehicles; John S. Bacon, trades and industries; A. P. Worthen, automobiles. There will be the Weymouth band, George White, leader; and the American band, Castelli, leader.

The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair. The parade will be a grand affair.

Thursday, August 24, as we have said, will be the High School Day and the school is about to enter upon the second half century of its existence and has graduated nearly a thousand pupils, much may be expected on that day.

High School Reunion.
The prime feature of Old Home Week is to bring together members of families and associates that have been for some time separated. A reunion of High School graduates is therefore appropriate at this time and should be encouraged by every former pupil and graduate of the "Old High."

Thursday, Aug. 24, is the day appointed. The afternoon session will be held at the church, South Weymouth, and is designed to keep alive the recollections of "old friends and old times" in high school association.

The success of the affair depends upon the desire of the alumni to so meet one another. Your absence means that you have forgotten delightful times and many friends. Therefore be present and foster one of the virtues that should never die—the virtue of remembering and commemorating good things. The only expense will be the foot you may bring with you. Ice cream and coffee will be furnished by the committee. Come and join!

The evening occasion is for all, of course, but more particularly for gay spirits than those who meet for the handshake and the communion with old acquaintances. May all the younger class

Weymouth Band—Worthy Music.
Editor Gazette: Owing partly to my absence in Europe a year ago, last Friday evening was my first opportunity of hearing our Weymouth band—George White, leader, in one of their street concerts. To say that I was delighted to give a new pride in my Weymouth citizenship is but to indicate my high appreciation of all that I heard. The selection of numbers, the time, the harmony and the skill of the performers combined to make the concert of rare merit and value. While in Europe I was privileged to hear military bands at Vienna, Berlin, London and Edinburgh, each presumably the best that its government can provide, but I am free to say that, all things considered, Mr. White and his associates would need have no hesitations in placing their band in the class named; in them they doubtless would win high praise.

Our Weymouth band is not without appreciation on the part of many of our citizens, but may it not be possible for this appreciation to be increased and to be more widely extended? In part, would we not of the "Landing" hour the band, as well as greatly benefit ourselves and show a somewhat due public spirit if we provided for two band concerts a week, one at each Lincoln and Washington squares, from now till the first of September? Bands, like editors and preachers, need encouragement; also, bands, like everything else, cost money. Also, how exceedingly helpful to the well being of community at large are the concerts here spoken of.

Deafness Cannot Be Cured
by local application, as they cannot reach the diseased portion of the ear. There is only one cure, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube gets inflamed, it swells and shuts off the hearing. It is entirely cured by Dr. Williams' Pink Pills for Pale People, which restores the inflamed membrane to its normal condition, leaving the hearing restored to its normal condition.
